

## ABSTRACT

AP20 Rec'd PCT/PTO 15 DEC 2005

New ligands for the ORL-1 receptor are described, useful for modulating the activity of said receptors in a patient in need thereof, and for preventing and treating illnesses dependent on the stimulation of this receptor. The new compounds conform to structural formula (I),

(I)

wherein  $Q$  is a moiety of formula:

and  $R$ ,  $R^0$ ,  $R^1$ ,  $R^2$ ,  $R^3$ ,  $R^4$ ,  $R^5$ ,  $R^6$  are further defined in the description.
